

C.R. Laurence Co., Inc. (CRL) is the leading supplier to the glazing, railing, architectural, construction, industrial, and automotive industries. Offering more than 50,000 products, the company serves the industry from locations throughout North America, Europe, and Australia.

Customer service has guided CRL ever since its beginnings over 48 years ago, when it started as a fledgling distributor of glazier's hardware and industrial supplies, operating out of a 5,000 square foot facility in Los Angeles, California.

Today, C.R. Laurence is still the leading supplier of products to the glazing industry. We also design, engineer, and manufacture a wide variety of architectural hardware, including commercial and residential architectural railings, hardware for "all-glass" commercial entrances, transaction hardware, and frameless shower door hardware. CRL also manufactures a quality selection of automotive window products. More than 600,000 square feet of space is dedicated to CRL's distribution and manufacturing operations in Los Angeles.
