

IIBP, LLC

Home of the Plaza Door

Located in sunny south Florida since 1960, Plaza Door has been a leading manufacturer of high-quality residential and commercial custom sliding glass doors. Our products are built to order and have been tested and proven to withstand years of use to provide hassle-free operation. With the yearly threat of potentially damaging hurricanes over the horizon and rising insurance premiums, Plaza Door's Titan Series small and large missile impact rated sliding glass doors will help protect you and your investment.

Our sliding glass doors are only available through our network of dealers to ensure that installations are done correctly. This maximizes effectiveness during harsh storm conditions.
